"Gotta Go My Own Way"
by Vanessa Hudgens and Zac Efron

Julie Arnold
Special Education

Julie has been a calming presence for many in Project Growth. She possesses a patience that is appreciated by all those around her. Over the years, Julie has shown her students how to reach their potential by teaching them the proper way to budget, shop, cook, and take care of themselves (just to name a few). She has made a lasting impact on the lives of her students. Her passion is obvious in her lessons and how diligent she is with helping her students meet their goals. She is not afraid of hard work and puts in long hours to create the best possible learning opportunities.

The staff will miss her attention to detail and her willingness to do anything asked of her. We recommend anyone attending her Project Growth Holiday Parties prepare themselves for a competitive game of Jeopardy. Julie - We love you and we wish you well in your retirement!
~The Project Growth Team

Mrs. Harding has always been one of the most helpful members of our community here at PNHS and although that support is not always known, it is by far the most visible. I see it every morning walking by the library, noting the crowds utilizing the facilities made possible by her support and dedication. I've seen it in her willingness to always help a student find a book that interests them and having a conversation about said book or the author upon check out. I've seen it in the careful way in which Mrs. Harding helps students make sure their images are just perfect for their colored copies or even in her gentle reminders to the students to bring their loaned chromebooks back in order that everyone has access to a computer. Most importantly, I've seen her passion helping our community understand the potential in the library, its vast resources, and its knowledge to help everyone grow personally and intellectually. She is a genuine philomath and has helped so many others share in that passion. ~ Nick Davis, World Language Department

Bob Savage
Technical Studies

Bob, You have been a mentor to all of us during your years here at Plymouth North. We have all enjoyed hearing your stories from the old building and from the decade you spent here in the new building. The relationships that you have built with your students are admirable. You always provided each of us with great advice and reminded us not to take things so seriously. We miss hearing all of your stories and all of the fun facts about you at lunch. We hope you are enjoying your time off and spending it bike riding, beekeeping, and doing everything that makes you happy. Congratulations on your retirement and thank you for everything over the years! ~The PNHS Tech Department

Mr. Savage was that teacher that everyone loved to be around. I was lucky enough to have Mr. Savage's Wood Design class my freshman, sophomore, and junior year. We had so many laughs and long talks about his beekeeping business which were my favorite. He also would give me great life advice. Mr. Savage was the best. ~Killian Murphy, Class of 2024

RETIREES

Nancy Rozack
Science

In every school's story, there are pivotal characters who shape its narrative, leaving an indelible mark on the lives they touch. For PNHS, Nancy stands as a beacon of dedication, innovation, and unwavering commitment to educational excellence.

Nancy's journey began humbly, as a Lab Aide, where her passion for science and nurturing students' curiosity ignited. Through perseverance and a relentless pursuit of knowledge, she transformed into a licensed science teacher, embodying the very essence of lifelong learning.

Over the past decade, Nancy has been at the forefront of our quest to establish the Biomedical Program, a visionary endeavor that has enriched the academic landscape of our school community. Her tireless efforts have not only earned her Project Lead the Way National Teacher of the Year recognition but have also inspired generations of students to excel, both academically and personally.

Nancy's impact extends far beyond the confines of our classrooms. Her innovative initiatives, from the thought-provoking Project Lead the Way Biomed Talks to the immersive in-school field trips with the engineering program, have sparked imaginations and broadened horizons, nurturing a culture of inquiry and exploration.

As Nancy embarks on the next chapter of her journey, her departure leaves a void that will be challenging to fill. Yet, her legacy of excellence will continue to resonate within the halls of Plymouth North, guiding and inspiring future generations of educators and learners.

To Nancy: You have been a teacher, a mentor and a visionary. Your unwavering dedication has illuminated the path to knowledge and inspired countless minds to soar to new heights. Your impact is immeasurable, and your legacy everlasting.

Thank you for everything.
Love, Your PPS Science Friends

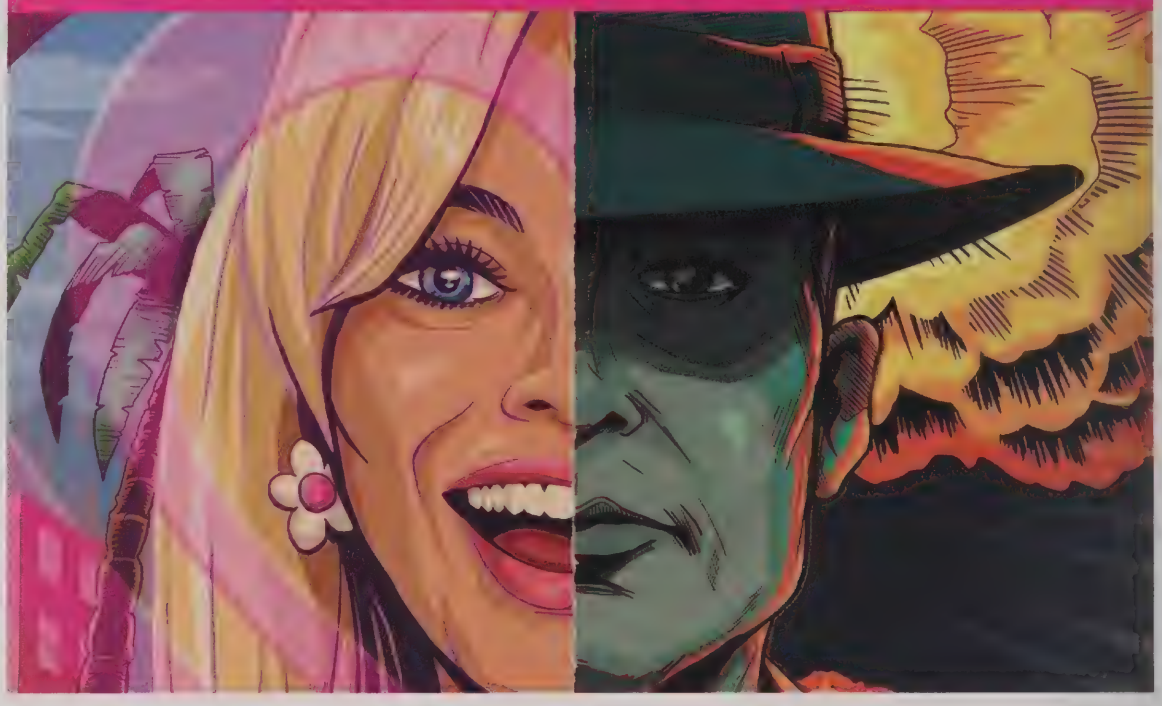
THE SUMMER OF barbenheimer



WHAT STARTED AS A JOKE on social media turned into a cultural phenomenon packing movie theaters and breaking box office records. When fans realized *Barbie*, a movie about the doll of the same name, and *Oppenheimer*, a historical drama about the creator of the atomic bomb, were set to debut on the same day, social media quickly created memes to promote "Barbenheimer" as a double-feature event. Dressed in pink or wearing clothes to match J. Robert Oppenheimer, fans came out in droves, sending the box office total for the two movies to more than $1 billion in seven days. *Barbie* broke multiple records during its theatrical run, setting new standards for the biggest opening by a female director for Greta Gerwig, the highest opening for a non-sequel and the highest grossing film in Warner Brothers history. Not to be outdone, *Oppenheimer* set the record for highest grossing biographical movie of all time.

yes, CHEF!

FX'S THE BEAR debuted its second season in June 2023 to critical acclaim, but it was the first season of the show which nearly swept the comedy categories at the Emmy Awards. Jeremy Allen White, Ayo Edebiri and Ebon Moss-Bachrach all took home acting trophies, while creator Christopher Stone won for writing and directing. Edebiri became only the third Black woman to win the Emmy for Supporting Actress in a Comedy, joining Jackée Harry and Sheryl Lee Ralph. Edebiri and White also took home Golden Globes for their performances.

SO HOT RIGHT NOW

STANLEY CUPS became a cultural phenomenon after multiple videos went viral on TikTok. The first showed the aftermath of a fiery car crash, where a Stanley cup remained undisturbed, still filled with ice. The video gained so much notoriety that Stanley's president offered to buy the creator a new car. Videos showing people waiting hours in line at Target for the Stanley x Starbucks collaboration made the cup go viral again. It sold for $49.95 and fetched hundreds of dollars for resellers.

WHEN IN rome

HOW OFTEN DO YOU THINK ABOUT THE ROMAN EMPIRE? That's what social media users asked their (mostly male) friends, family and coworkers during the summer of 2023. After being posted on Instagram, the viral question worked its way to TikTok, where (mainly) women asked their male counterparts how many times a day they thought about the Roman Empire. To their surprise, some men admitted they thought about it multiple times a day. The moment created multiple spin-offs, where users shared their own Roman Empire versions.

THE ROAD TO FAIRNESS

MEMBERS OF UNITED AUTO WORKERS AT FORD, GM and Stallantis ratified a new union contract on Nov. 20, 2023, after a six-week strike disrupted the auto-making industry. The agreement included a 25 percent increase in base wages, a decrease in the number of years it takes to get to top pay, and boosts the pay of temporary workers, among other provisions. Because of the strike, Toyota, Hyundai and Honda announced they would also increase pay for their workers, though they are not currently covered by the union.

shifting PARADIGMS

IN A HISTORIC RULING, the U.S. Supreme Court ended race-conscious admissions programs at colleges and universities across the country. In a 6–3 decision in *Students for Fair Admissions, Inc. v. President and Fellows of Harvard College,* Chief Justice John Roberts, writing for the majority, said the schools must use colorblind criteria in admissions. It left the door open for military academies to use race as a factor, deeming they had "distinct interests" to continuing affirmative action policies, citing the need for a diverse officer corps.

REPUBLICAN rift

REPUBLICAN SPEAKER OF THE HOUSE KEVIN MCCARTHY was ousted by members of his party on Oct. 3, 2023, after Florida Rep. Matt Gaetz introduced the motion to remove him. Gaetz turned on the California representative after McCarthy made a deal with Democrats to avoid a government shutdown. The 216–210 vote was the first time in history the House removed its leader.
